Submitted on October 3, 2009: Adopter: Addisons Boxer's Name: Dixie (2004)

"Greetings from the Addisons! My name is Dixie and I came to live with my new family in 2004. I am having lots of fun, but I stay awfully busy! I have 2 little sisters who love to lay on me, pull on me and squeeze me. (They're making me go gray!) One of them is 3 and the other is almost 9 months old. They're really cute and I LOVE them, but like I said- it's lots of work protecting them, entertaining them and warning mom and dad when they're up to no good. Not to mention cleaning up under their high chairs! Whew!

My interests include boat riding, road trips, chasing squirrels and of course gazing out the window from my favorite spot on the couch. I really want a playmate to grow old with and mommy "shops around" on FLBR all the time, but Daddy says we need to wait til we have a bigger house. Ahh...one day!! That's all the news so I guess we'll see you around!"

Slurps to all,  
Dixie

It is almost 5 years since we adopted Spooky. She is a special part of our family. Two years ago, we lost our cat after 19 years and Spooky was lonely so we added another Boxer, Gingy, to our family. It is true, Boxers are like potato chips, you cannot stop at one. Spooky gets lots of love and attention from our children, Anthony and Jo Anna, as well as her fur sister Gingy. Spooky likes to go for car rides, walks and to visit her Aunt Linda at the beach. Every year she is the star of our Christmas cards. She even got to go to the water park at CB Smith Park, in Pembroke Pines. She is an amazing dog.

I LOVE my new Mommy and Daddy, they have given me the best home a pup could ask for. In the past year I have learned to shake, laydown, rollover and speak. My old parents got rid of me because I was an escape artist. So more importantly, I have learned to stay in my backyard (and the 2 neighbors yards) without a leash! My Mommy takes me for walks twice a day. As soon as I see her put her tennis shoes on, I get sooo excited. I have a very nice bed but most of the time I prefer the couch. I have a cousin Snickers whom I get along with very well, we like playing tug of war. Overall, I could not have asked for a better family. My Mommy and Daddy are so thankful that they could give me a good home, they give me tons of love-ins and I just eat it up! Thanks FBR for finding my forever family!
